

Hello!

We would like to comment against a proposal to expand low power FM service that would allow new LPFM stations to take priority over current FM translator service. This new proposal might mean the loss of one of our favorite radio stations, Air 1 (90.1 FM), in our area. We enjoy listening to this radio station -- it entertains and edifies us. It also helps to do the same for countless other people in our community. There is no other radio station quite like Air 1 in our area and it would be a real loss if it was replaced or displaced by an LPFM broadcaster providing other programming.

Thank your for reading our comments.

Russell and Tina Ingold
